ABOUT ME

Hello, I'm Rajan GC, a skilled frontend web developer with expertise in HTML, CSS, JavaScript, and React. I have a passion for creating visually appealing and intuitive user interfaces that enhance the overall user experience. With a keen eye for design and proficiency in tools like Figma, I excel at translating concepts into stunning web designs.

PROJECTS

Personal website

https://gcrajan.com.np/

Here you can find all my projects. You can see live demo and get link of source code too.

FoodKhoj

It uses react router and includes fetching food details from api.
Live demo:
https://gcrajan-foodkhoj.netlify.app/
